Basics

Our Basics package is ideal for start-up businesses, sole traders, small partnerships and small companies. This low-cost option is perfectly suited for businesses that want their compliance obligations taken care of, with an accountant on-call should any unforeseen issues arise.

Business Builder

Our Business Builder package is suited to those who want their compliance work taken care of but also need assistance to take their business to the next level. With this option we'll provide guidance before the end of the financial year to make sure you're not headed towards any nasty, unexpected taxation bills.

Business Advisory

Our Business Advisory package is tailored for businesses that need their basic business compliance taken care of, allowing them to focus on the growth of their business. To ensure this is occurring, we'll undertake regular reviews of results to enable us to provide proactive advice.

Virtual CFO

Our Virtual CFO package is ideal for businesses that understand the advantages of solid advice on a regular basis with an accountant who looks beyond the numbers and really gets to know your business. We also provide assistance with business planning and annual forecasting.
